NOVEMBER

### ON OUR OWN

After twenty one years of publication, Gisborne Photo News is to close this month.

Sister magazine to Taranaki Photo News, the Gisborne magazine was the first Photo News to be established, back in 1954. Taranaki Photo News followed in 1957, the second, and now the only regularly published Photo News magazine left.

Economic problems forced the closure of the Gisborne magazine and while it would be foolish to pretend that we haven't suffered from the same problems, we do wish to assure readers that at this time, we have no intentions of closing the Taranaki Photo News. We have had problems for some years but have overcome these with two price increases, a change in paper and a change in format. Mostly these have not been popular changes but they were essential to keep Taranaki Photo News going. We will have difficult times in the days ahead and this may well cause further changes, but as long as we continue to have your support, as long as you continue to buy the magazine each month, we believe that we can continue to publish for a long time to come.

Got your Taranaki envelope, and/or luggage/bumper stickers yet?

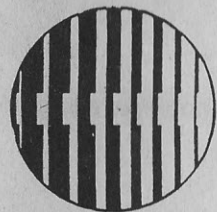

They are available at my office, from Dean Kelly (Stratford), Jack Worthington (Eltham) and most service stations.

One bird (winged variety) to another as they flew over suburbia ..... " That fool's washed his car again.....is it your turn or mine? "

You always know which people have found life a bed of roses — you hear them complaining about the thorns.

Things have changed since grandma hauled the wash water from a well in a bucket — but at least grandma didn't have to stay up nights figuring out how to make payments on the bucket.

Men still die with their boots on — but usually one boot is on the accelerator.

**I SUPPORT  
THE  
OPERA HOUSE**

The latest break-through in the promotional field is inclusion of our region in the NAC Convention Directory.

About 2,500 conventions and seminars are organised annually in New Zealand, benefitting not only the host venue and back-up services directly involved, but the entire business community, through the injection of convention and individual delegate expenditure.

The inclusion of Taranaki in the NAC Convention Directory will ensure that we, as a region, will gain at least our share of the convention market.

A father of four says he gets obedience from his family once a year, anyway. Every time his birthday rolls around he tells them not to spend a lot of money on him — and they never do.

What's in a name? Makes you wonder, what with all the "who-ha" about renaming Egmont, Taranaki. From my point of view the repercussions of such a move are too great to justify real consideration. Every publication would have to be revamped (at tremendous cost) and it is true to say that people, be they New Zealanders or from overseas, know Mt. Egmont but not Taranaki.

Still think the quickest way around town is on a motorcycle. You never find one sitting in behind a car travelling at the legal speed limit. No, with a hiss and a roar, past they go.

It seems the Taranaki Promotion Association is to be invited to affiliate to the New Zealand National Travel Association as an industry member. In this way TPA will be able to keep in touch with tourist development on the national scene.

## Readers Write

Dear Sir,

I attended the Photo News Ball on Saturday September 27 and would like to tell of my absolute disgust at such haphazard arrangements.

I purchased two double tickets at the cost of \$30 for myself and friends and when we arrived at 7-30 the place was in darkness. We managed to find an official who told us proceedings should start at around 8-0pm. We then had the choice of waiting in the freezing cold or repairing to the local tavern adding more expense to the already exorbitant cost of the evening.

I went to the trouble of purchasing a new dress, an absolute waste of time as I didn't take my coat off as the heating wasn't working. The group was minus two members and I presume the comedian was that rather odd character I saw wondering about in gumboots. Enough said on that subject.

Then the highlight of the evening, the supper. I have been to many cabarets but a worse supper I have yet to come across.

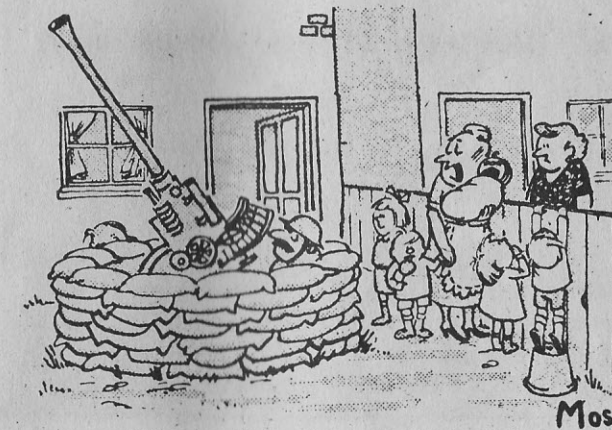

We were thoroughly disgusted with the whole affair and wouldn't recommend a Photo News Ball to anyone. In consequence our party left early.

If I don't hear from you to my satisfaction I shall have no compunction in writing to the local press expressing my complete dissatisfaction in what was advertised as a ball.

Janice M. Maddox,  
36A Doone St,  
New Plymouth.

*Your comments have already been expressed in a previous letter to the Editor, published in our last issue — Vol. 19 No 10, October magazine.*

.....Ed.

"Heaven help that Stork if he shows his face round here again."

Dear Sir,

What does Mrs J M Bayes of New Plymouth mean when she says the supper at the Photo News Ball was a disgrace to the catering profession. Perhaps, more to the point, where was she at supper time? Supper, as we enjoyed it, consisted of chicken, oysters, savouries, pavlova, cream cakes, ham, curry and rice, plus the usual sweets like sponge cake etc. Furthermore, we were late to supper, still found plenty and when we left, (one of the last to leave the supper room) there was still plenty left over. Mr Bayes, I don't think you belong at a cabaret. I think you set out intentionally not to enjoy the evening, so enjoy it you would not. Next time I would suggest that you stay home.

Mrs M. G. Rogers, New Plymouth.

Dear Sir,

I have read the letter by Mrs Bayes in the last Photo News and the reply by the Editor. I note that it is intimated that there will not be any future Photo News Balls. I am concerned that the management of this magazine should be so influenced by one nasty letter that they would stop the enjoyment of many who have attended past Photo News Balls and who would attend again in future years, just because of one person's complaint.

Surely your management would not let one person who it seems set out to ensure that she did not enjoy the night and who probably upset others because of her attitude, ruin what has been a most enjoyable night out for several hundred other people. I would point out that most people realise that in these difficult economic times, it is not easy to organise a social event on a shoe-string budget, in fact virtually impossible. I believe that Photo News has done a good job with the Ball and that their recognition of Taranakians efforts in many fields, both community and sport is something we should be thankful for. May the Photo News Awards and the Photo News Ball continue and be supported by all of us who live in the province.

## Display of Trains

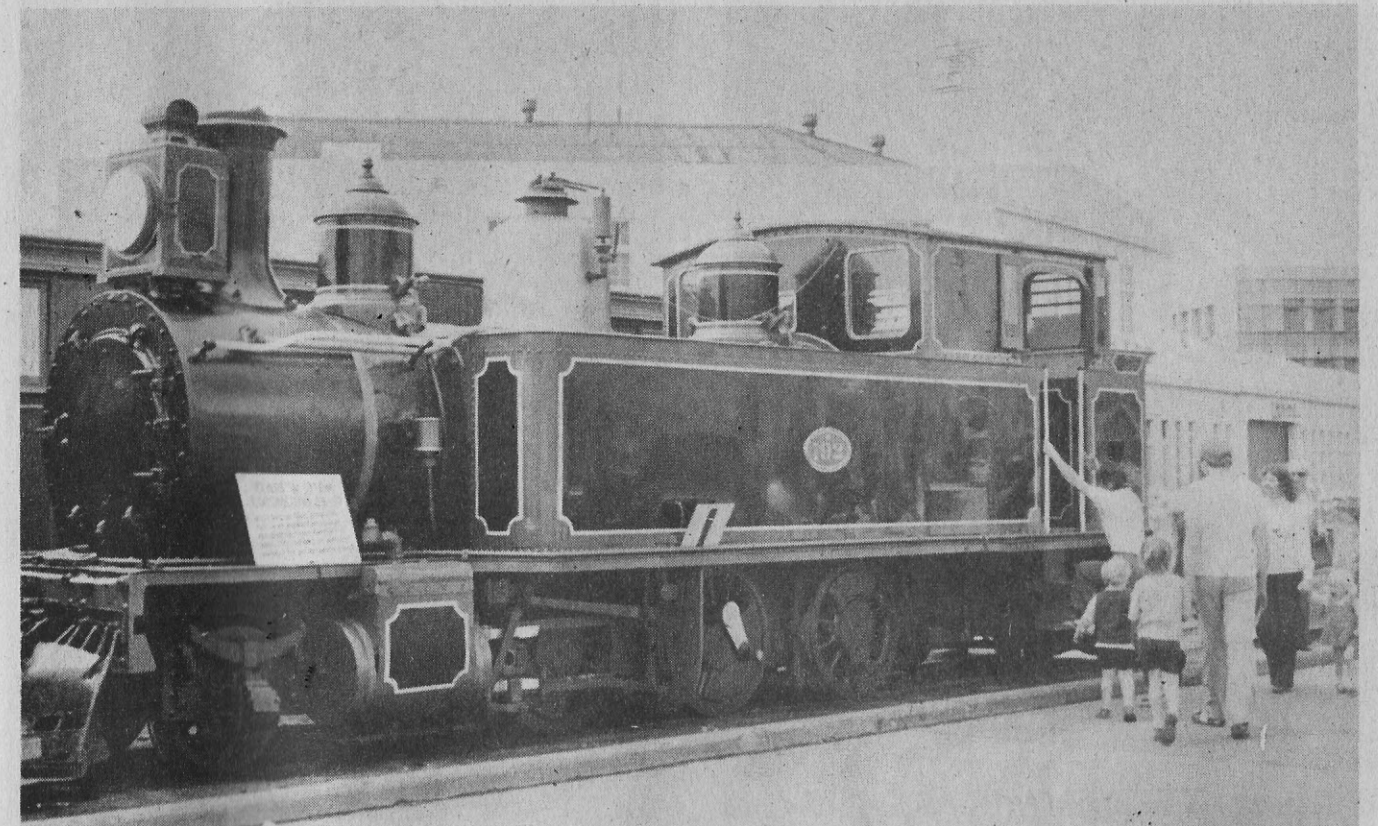

To celebrate the 100th Anniversary of the opening of the New Plymouth -- Waitara Railway line the Railways Dept. staged an interesting display of engines and rolling stock. The display was set up at the New Plymouth Marshalling yards and proved to be a children's delight.

*Kris Vinsen found train driving hard work.*

*People cling to the rocks at the breakwater.*

*The Gold Dart was a sleek and fast vessel.*

*Kodak have entered into the power boat thing.*

# offshore power-boat race

The annual Offshore Power Boat Race, held off Port Taranaki, was held earlier than normal this year. The event was staged in the middle of last month in exceptionally fine weather and with an almost perfectly calm sea. Interest in the event was again very high and the number of entries received was most pleasing for the organisers.

*Wattle Down is gently led into the water.*

*Always a favourite, Comsec.*

*Sidewinder lifts her bow and flies across the calm sea.*

*The Gobla Hunter put up a good performance.*

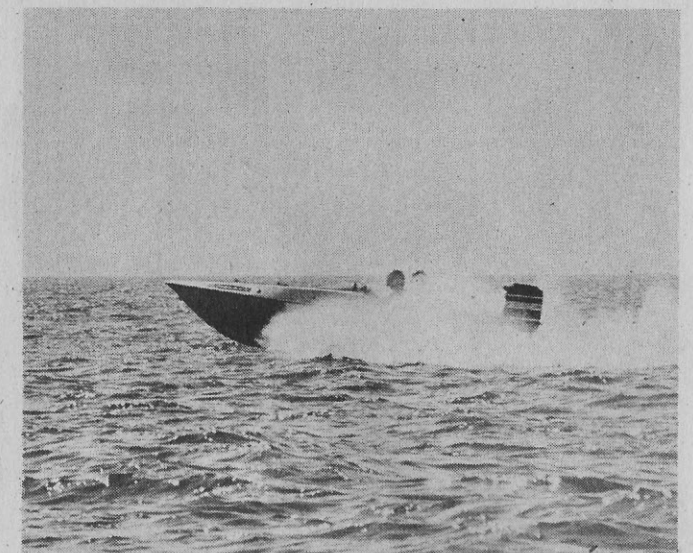

*Photographically speaking, the dramatic moments were few. Here's one as this boat lifts out of the water.*

*Coassack — sleek, powerful and attractive boat.*

*Crowds line every vantage point to obtain a good view of the race.*

*Spray flies as speed increases.*

## **Gisborne Photo News is to close down**

Gisborne Photo News has announced that the magazine is to fold. The last publication will be the November edition.

The reason given for the closure is economic grounds — a combination of the rising cost of materials (particularly the phenomenal increases in the cost of paper) and the rising cost of labour. The Gisborne Photo News was established in 1954 and was the fore-runner of many other such publications from Northland to Nelson. Taranaki Photo News followed Gisborne and was established in 1957 followed by Nelson, Wanganui, Hawkes Bay, Waikato and others.

Over the past few years all of these magazines have met the same fate as the Gisborne magazine and all have closed for economic reasons. Gisborne and Taranaki Photo News magazines have always been the two strongest of all the Photo News magazines, with a much bigger circulation and possibly with firmer management control. In the climate of the past few years economic turmoil, survival of all Photo News magazines has been a continuous problem. It is therefore no real surprise that the Gisborne Photo News has finally folded.

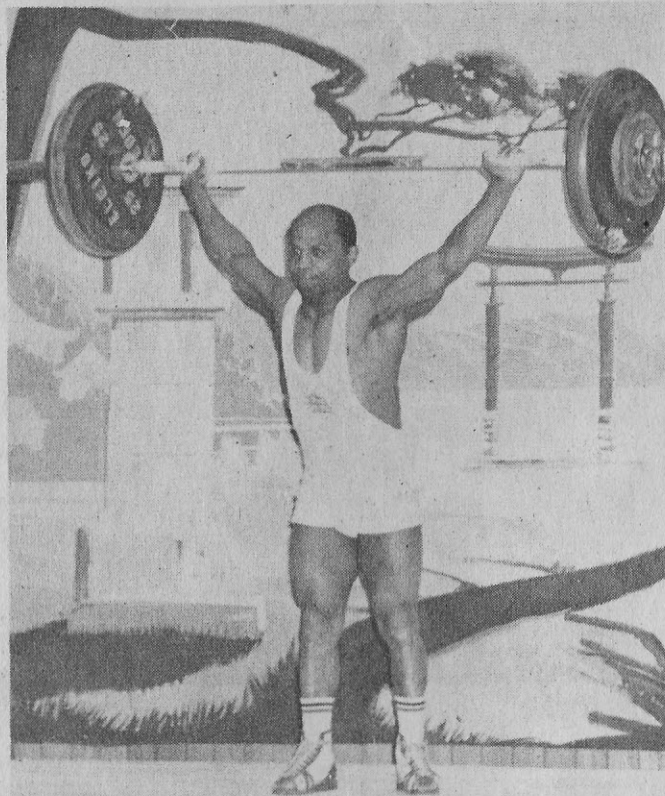

This now leaves Taranaki Photo News as the only regular monthly Photo News magazine in existence. The Hutt publish a Photo News, but it is quite irregular in publication. As readers will be quite aware we at Taranaki Photo News have had our problems too. This has resulted in many changes of format and paper, all necessary to keep the magazine alive.

At this time we have no intentions of closing Taranaki Photo News. As long as the public (and this means YOU) continue to regularly buy the magazine, we feel that we can survive for quite a time yet. However, as our costs are on the increase too, we will obviously have more problems ahead of us. The recent 5 cent increase in the retail of Taranaki Photo News has solved the immediate problems but we are all caught up in a vicious cost spiral which will create many more problems in the days ahead. May we again appeal for your continued support to enable us to keep Taranaki Photo News coming out regularly, each month.

## NATIONAL Weight-Lifting Champs.

The National Weight-Lifting Championships were held in New Plymouth last month. The Champs were held in the St Josephs Hall and were broken into two sections, afternoon and evening. The evening session was devoted to Middle and Heavyweight divisions while the lighter weight categories were held in the afternoon. One of the highlights of the Champs was when Precious McKenzie broke his own record. This is recorded on these pages.

*Precious McKenzie of Auckland, Bantamweight. He broke his own record and set a new one of 92.5kg.*

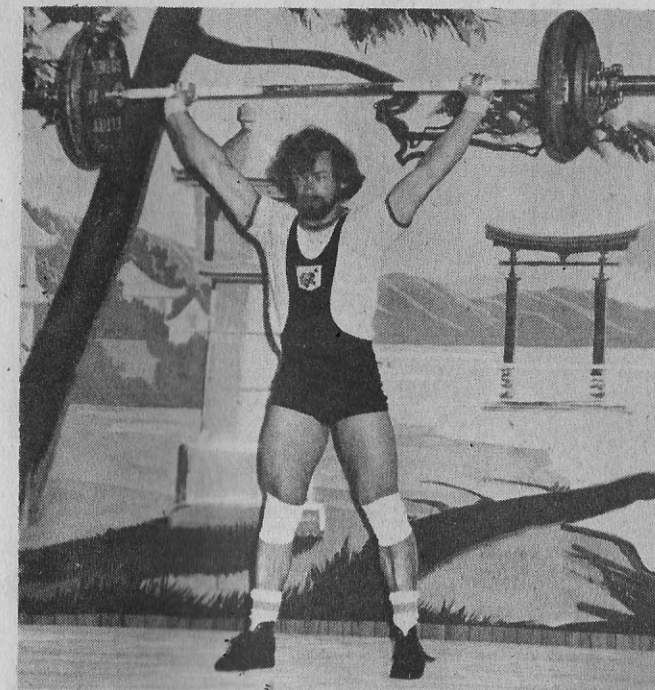

*P. Dorren of Canterbury, a Lightweight.*

*D Attwood of Auckland a Lightweight*

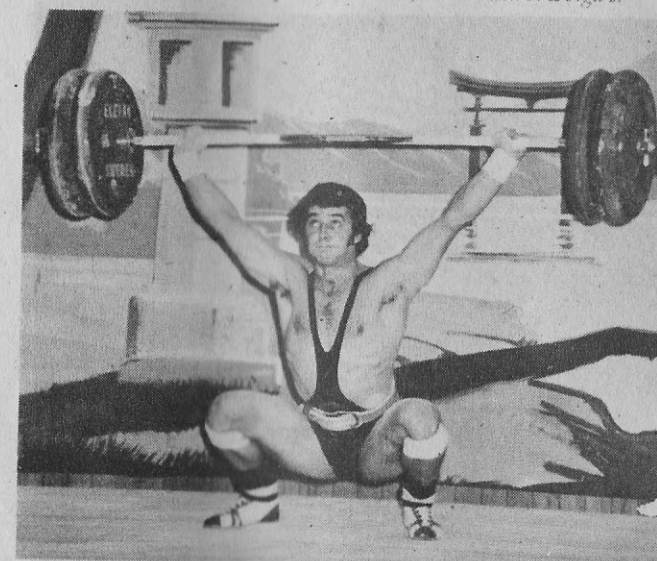

*P Weage of Northland, a Flyweight.*

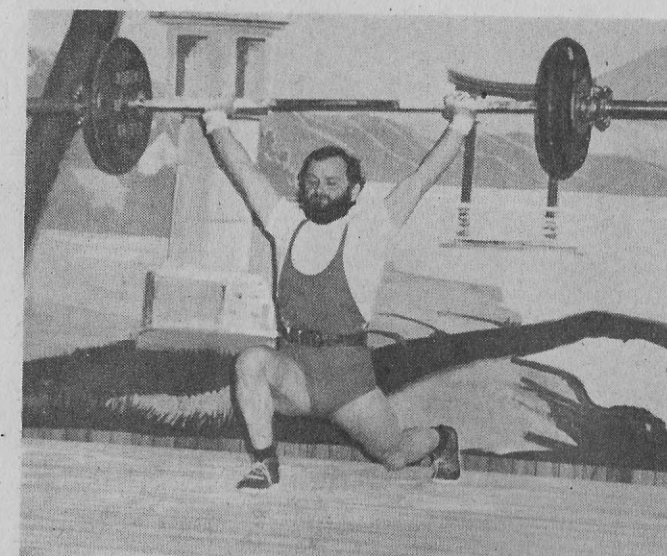

*F. Fuata competes in the Featherweight section.*

## They did this for fun

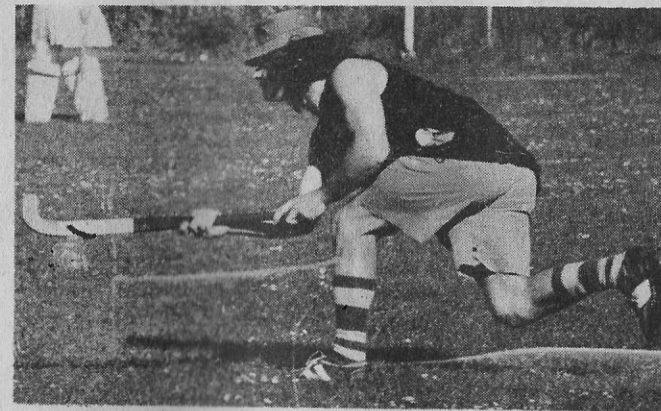

It has become an annual fixture for the New Plymouth Combined Ladies Hockey team, to play a match against "The Guys". This match invariably becomes the 'social' event of the year and the guys team is made up of all manner of 'bods,' including husbands, boy-friends plus their 'friends'. As usual the event was a fun match and once again resulted in a 3 all "draw".

*Running out the ball, so to speak.*

*Who let 'Her' onto the field?*

*Hey, what's Fred Dagg doing with a hockey stick?*

*How come the real girls never get dressed up at these fun games?*

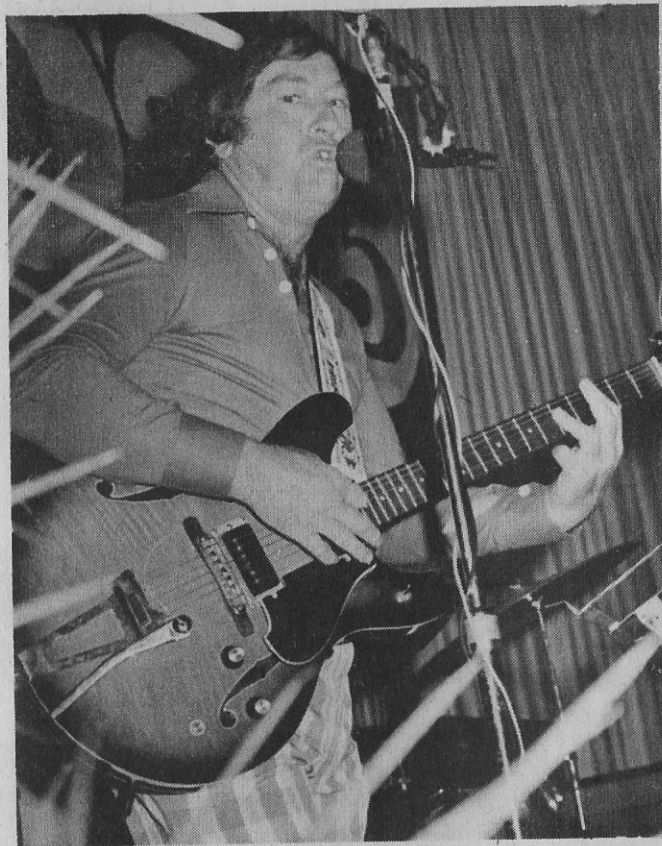

*'She's' the kind of girl I like, — bushy eyebrows and moustache...????*

*The name of the game was hockey...but...we weren't quite so certain about that.*

Singer Geoff Logan from Hawera really beats it out. When the band broke into Rock Around the Clock, the crowd went crazy.

# Muso's Ball

Every year on Labour Weekend Sunday Night, the Taranaki Musician's Ball is held. The event has now become something of a Taranaki Institution and is always a highlight of the social year. This year was no exception. The Bell Block Hall was jam packed with a fun crowd and the Ball started with a smorgasbord in the early evening and ended way in the small hours just about at daylight.

# Made in Taranaki

When most businesses in New Zealand are retrenching, it is indeed pleasing to see one operation in Taranaki that is expanding. In the case of Tony Maketoni of Fitzroy, his expansion has however, not been an overnight affair but has been going on slowly for some years. Tony bought Fitzroy Footwear Repairs nearly three years ago and at that time developed a demand for the quality line of sandals that he made in fairly small quantities. Recently a shop in the Arcade at Fitzroy became vacant and Tony took the opportunity and moved his equipment in, at the same time expanding his sandal manufacture. Tony now employs two men and two women on sandal manufacture and his total production for this season is around six thousand pairs of sandals.

*From a large sheet of leather the vamps (uppers) are cut on this machine. This is where the whole operation starts.*

*This operation is called Skiving. The outer edge of the straps are stitched to increase strength and to help stop stretching.*

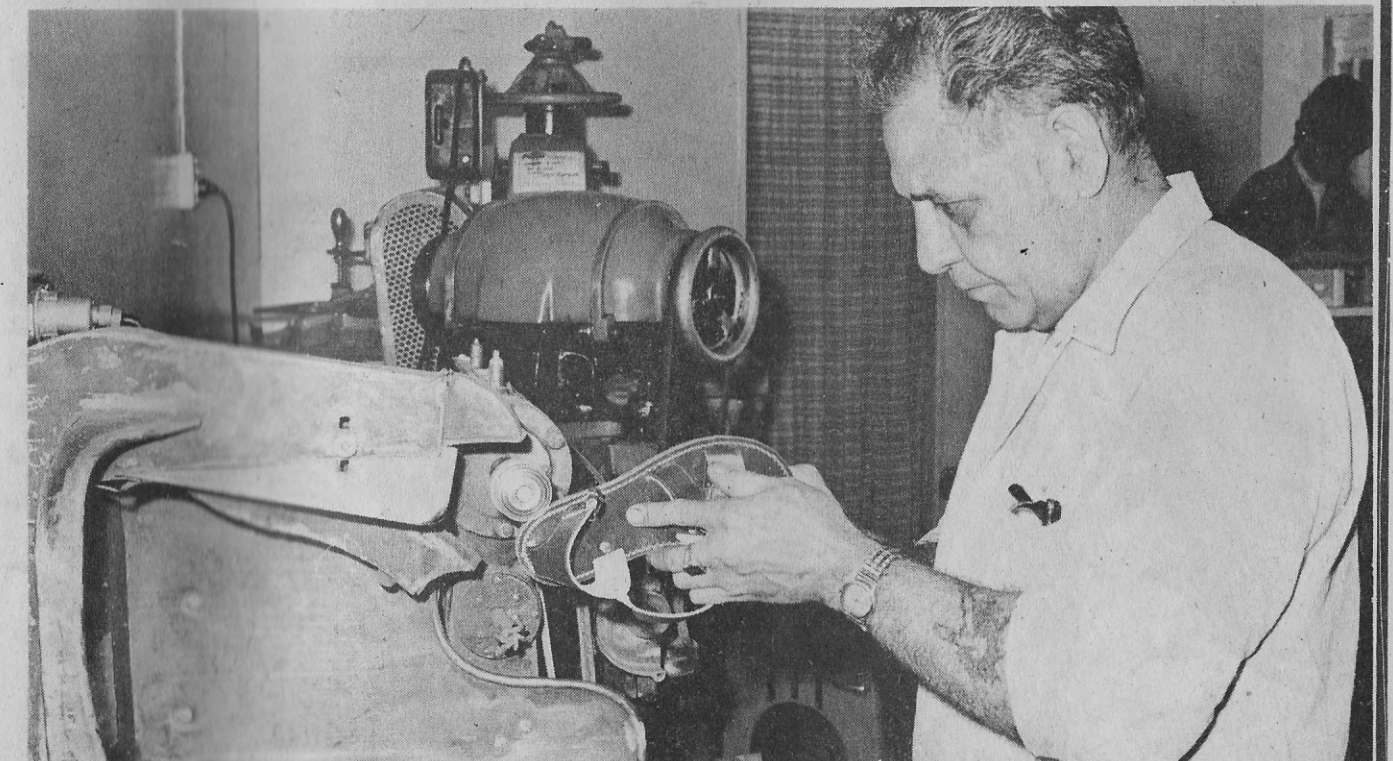

*The uppers are sewn together on this machine.*

*Runners are glued in place.*

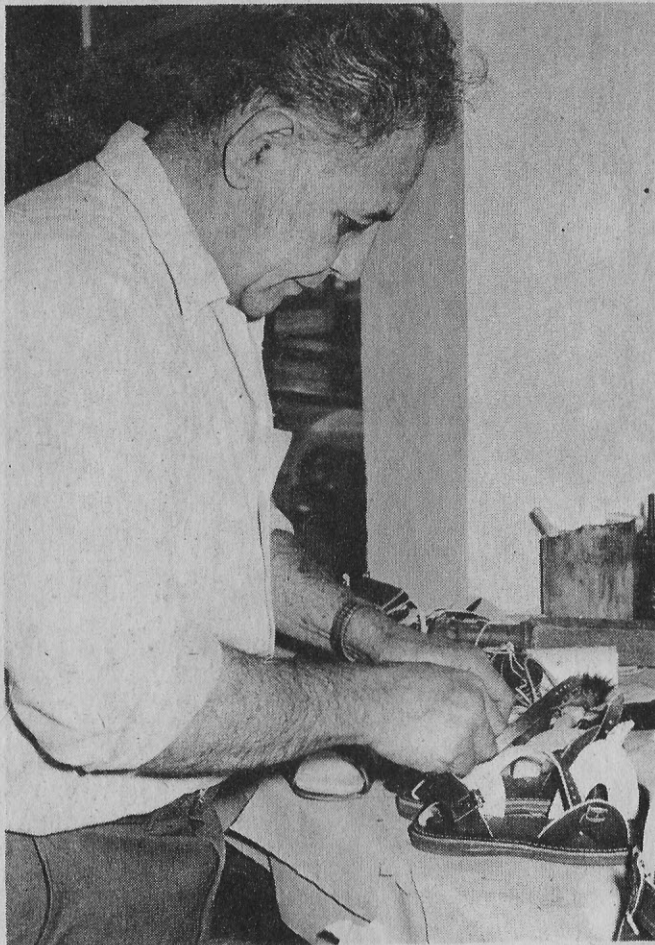

*After the runners are in place the sandal is stitched.*

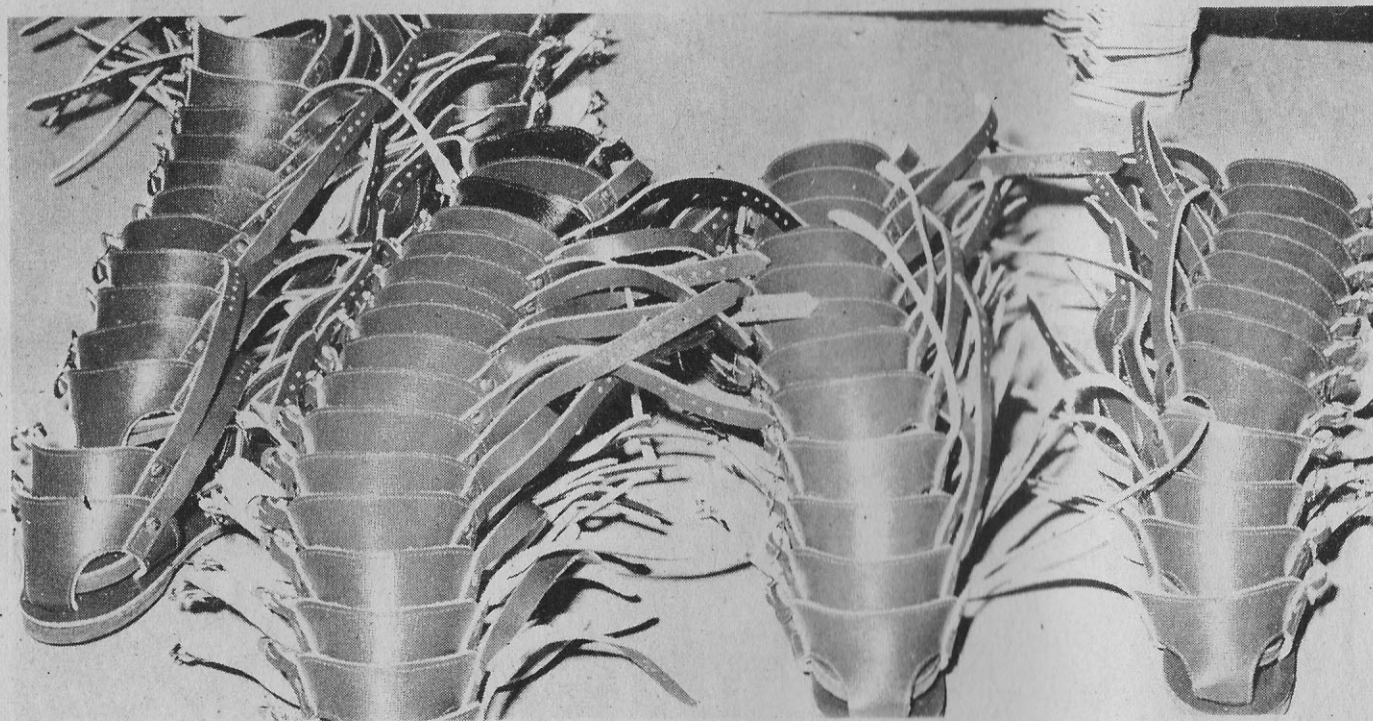

*The trimming operation. The edges are buffed to trim the soles and leather to the same size.*

A final check of each sandal and the pairs are tied together ready for sale.

The finished product, ready for delivery to the retail stores.

## Lighter Collection

Viv. Hall of New Plymouth has a hobby of collecting cigarette lighters. He has been collecting now for many years and his lighters number well into the hundreds. A few of his lighters are pictured on this page in the shelving units that Mr Hall has made to house them. In addition to lighters, Mr Hall also has a large collection of match boxes and old tobacco tins.

Viv. Hall with a small part of his collection, that consists of many hundreds of lighters.

A few of the special examples in Mr Hall's collection. The pistol at bottom right is truly beautiful with inlaid pattern work, while the silver lighters (table variety) at bottom left must be very valuable.

## Talented Artist

Every now and then attention is focussed on the work of one artist or another. Recently we discovered a very artistic person who works with the most unlikely materials to produce really beautiful works. Francis Upson has for many years been producing work and last month she held an exhibition in Inglewood, at the St Andrew Church Hall. Her work, pictured on these pages is made from material such as, macaroni, lace, seaweed, string, seeds and card. Mrs Upson's work was exhibited as part of the St Andrew's Parish Gala at Inglewood.

*Many examples of the fine and artistic work from the hands of Francis Upson.*
